This is what CABINET REFACING can look like! Our same quality custom exteriors with your cabinet boxes. Brand new painted all maple wood doors and five-piece drawer fronts replace the existing slab drawer fronts; premium conversion varnish custom paint match. Brand new quality hinges, soft-close doors. Adjustable shelves have been replaced on this project with some brand new plywood, dovetail joinery, full extension soft-close drawers. New upper and base molding finish cabinetry ends.

LET US WORK WITH YOU

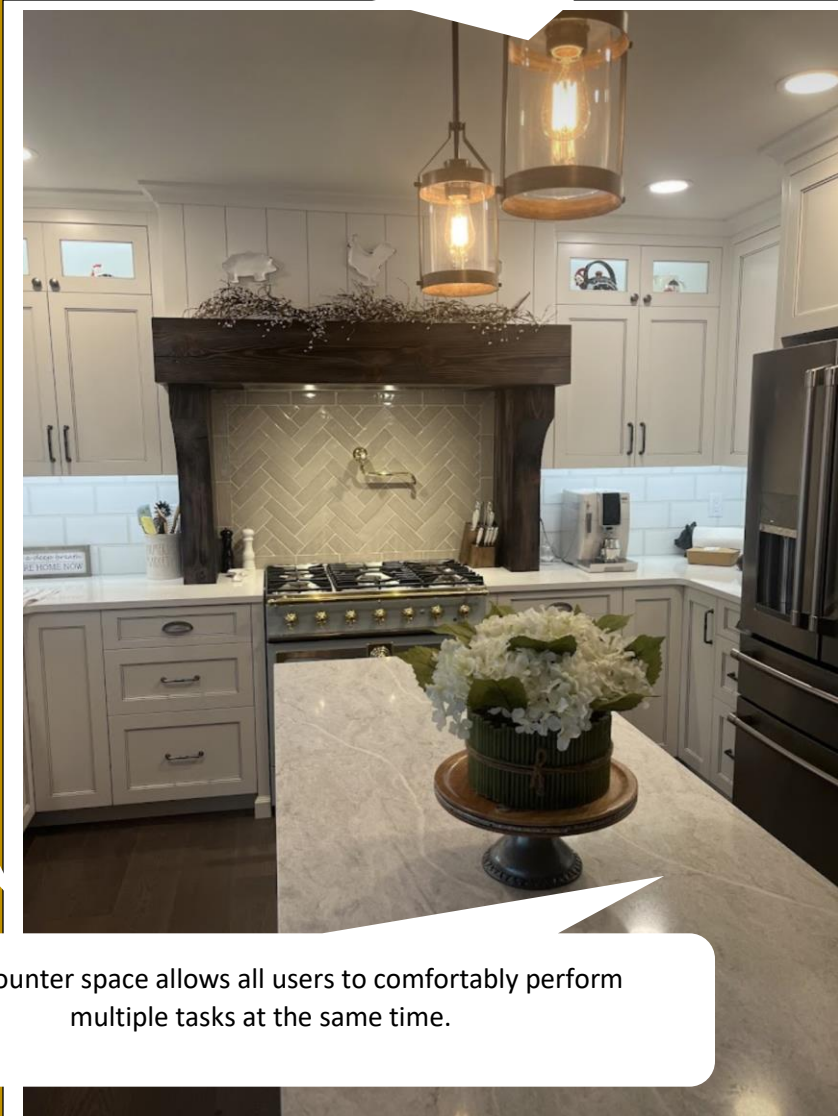

and have a wonderful kitchen and bathroom remodeling experience!

In business Since 2007 – Family Owned and Operated

Plan for adequate LIGHTING: This is a highly used space and layers of lighting should be planned thoughtfully. Consider ambient (general, overall illumination), task (direct lighting: e.g., undercabinet lighting) and accent lighting (e.g., pendant lighting).

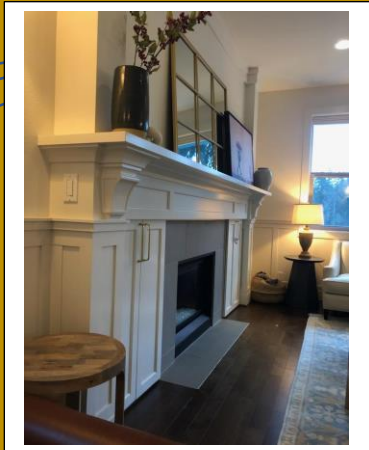

The **STARTING POINT** here is the flooring. This wider planked, darker flooring grounds the "5th wall" and contrasts the cabinetry.

WHITE painted custom cabinets are timeless and make a space feel brighter and bigger!

This custom hood color and material was also carried through in the ceiling beams in this kitchen!

Ample counter space allows all users to comfortably perform multiple tasks at the same time.

Custom mantels and added cabinetry are a great way to add additional storage and complete an open floor plan concept.
